# . About **Us**

Megas (Maknah Energy Asia), is a partner consulting company operating in the energy sector. Headquartered in South Jakarta, we are focused on driving sustainable growth through strategic investments in infrastructure, talent, and regulatory compliance. We are building a strong foundation for long-term success in a competitive and evolving energy market.

The founders of MEGAS bring extensive experience, having previously served as strategic partners to several companies in prior years.

MEGAS provides competent oversight in building companies to achieve their goals and prosperity, ensuring sustainable growth and success.

In particular, within the oil and gas industry, MEGAS contributes indirectly to oil exploration by supporting the government's program to achieve a production target of 1,000,000 barrels of oil per day (bopd). This is done through the reactivation of oil wells across Indonesia.

MEGAS is backed by highly skilled human resources proficient in market analysis, financial feasibility studies, and business strategies that drive innovation and growth in the oil and gas industry.

# . Our **Project**

## **OIL BLOCK**

## **DRILLING SERVICES**

# Our Vision

*" Actively contributing to supporting the Indonesian government in achieving the target of 1 million barrels per day in oil production, strengthening the nation's energy security. "*

MEGAS

# Our Mission

## **1. Identifying and Acquiring High-Potential Energy Companies**

Seeking and acquiring energy companies with significant potential to enhance oil and gas production in Indonesia, through careful evaluation and sound investment strategies.

## **2. Supporting the Implementation of Innovative Technologies in the Energy Industry**

Contributing to the development and adoption of new technologies that improve oil and gas production efficiency while reducing environmental impact.

## **3. Providing Comprehensive Consulting Services for Foreign Investors**

Facilitating the entry of foreign investors into Indonesia's energy sector by offering thorough consulting services, covering regulations, licensing, and market strategies, to promote investment growth in the oil and gas industry.

## **4. Fostering Collaboration with Stakeholders**

Building strong partnerships with the government, energy companies, and other key stakeholders to support policies that enhance sustainable energy production.

## **5. Prioritizing Sustainability in Every Energy Project**

Implementing sustainability standards (ESG: Environmental, Social, and Governance) in every energy project we manage, focusing on efficiency, green innovation, and compliance with environmental regulations.

## **6. Enhancing Local Capacity and Expertise**

Contributing to the development of human resources in the energy industry through training and technology transfer, to improve local expertise and competitiveness in the energy sector.

## **7. Supporting the Growth of Energy Infrastructure in Indonesia**

Directing investments towards projects that support the development of energy infrastructure, including production and distribution facilities necessary to achieve national oil production targets.

## **8. Managing Investments with High Transparency and Accountability**

Conducting all investment activities with the highest standards of transparency, governance, and accountability, to ensure the trust of investors and business partners.

# ■ Solutions We **Provide**

**1. Investment Curation & Acquisition Strategy**

**2. Due Diligence & Risk Assessment**

**3. Market Entry Consulting for Foreign Investors**

**4. Strategic Business Planning & Growth Advisory**

**5. Regulatory Compliance & Licensing Assistance**

**6. Financial Structuring & Capital Raising**

**7. Mergers & Acquisitions (M&A) Advisory**

**8. Post-Acquisition Integration Support**

**9. Sustainability and ESG Consulting**

**10. Energy Project Feasibility Studies**
